

The Zika Virus and the NWO Depopulation Agenda

[Joachim Hagopian](#) September 9, 2016

Right out of the globalists' population control playbook comes this year's Zika virus. What the elite don't want you to know is that the Zika virus has been around [for 69 years](#). Until this year it was always known to be a relatively harmless virus with typical flu-like symptoms rarely if ever lethal. Yet in January 2016 all that changed overnight when the medical establishment and New World Order controllers unleashed Zika-mania hype as their latest fearmongering strategy designed to cause panic amongst the global population. It's clearly another classic example of the [Hegelian Dialectic](#) at work where the ruling elite fictitiously identifies another enemy as the latest global problem threatening humanity, then reports false narrative lies as the reaction to said problem, in this case that the Zika virus is causing an [epidemic of microcephaly](#) – a medical condition that develops while in utero resulting in babies born with undersized heads and underdeveloped brains.

In April Brazil's Health Ministry reported that [near 5,000 cases](#) of microcephaly were on record in this year's Olympics host nation alone. According to MSM and the

World Health Organization's rabid case of fearmongering, the virus could rapidly spread to an estimated [4 million people](#) in the Americas alone. Of course the globalist agencies WHO/CDC (World Health Organization/Center for Disease Control) are Johnny-on-the-spot proposing the Hegelian solution and savior to this latest mysterious, scary pathogen to be the Big Pharma, ever-at-the-ready, [would-be vaccines](#) as part of the elite's carefully planned agenda of forced [mandatory vaccinations](#) and ultimate population (or more apt depopulation) control.

With the WHO and the CDC spearheading the propaganda blitz spreading panic through disinformation lies around the globe, this dreaded fear of deformed babies follows on the heels of the [West Nile Virus](#). And it's no accident that medical authorities are now warning women globally to defer from getting pregnant, especially in Latin American countries like Brazil containing large Roman Catholic populations where abortion is either restricted [or banned altogether](#).

[*Myths, Misunderstandings and Outright lies about owning Gold. Are you at risk?*](#)

And it's also no accident that a mere one day after WHO officially declared Zika an international public health emergency on February 1st, the [first known Zika case](#) in America was then immediately "discovered" in Texas,

ensuring that this latest manufactured global threat instantly hits home to all Americans. On top of this, from this alleged first US case, apparently it's not only mosquitos that we need to worry about as the standard transmitted carrier of this "dreaded" disease, but medical authorities claimed that Zika in Texas was contracted through sex, an immediate reminder of the HIV/AIDS pandemic and deadly STD's. The meta-message to the global public was that with Zika now on the loose, you should not only ensure that you don't get pregnant, but you should never risk having unprotected sex either. This less than subtle approach is no doubt meant to reduce the number of global births as a small measure of stemming the [Malthusian tide of overpopulation](#) in a limited world.

Deep state constantly uses flawed and [fraudulent science](#) as part of its premeditated weaponized propaganda machine against the people. In actuality, the Zika virus has never posed a serious threat to public health and safety. Per [the CDC](#), Zika's most common symptoms are fever, rash, joint and muscle pain, conjunctivitis (pinkeye) and headache, all mild "symptoms lasting for several days to a week." Additionally, [80% of those infected](#) never experience any symptoms at all.

Yet the elite's depopulation agenda is currently seizing upon the Zika hoax in order to aggressively promote as part of its

Hegelian solution an alarming, extremely dangerous, massive aerial spraying campaign targeting US communities like [New York City](#) (four of five boroughs), [Miami](#) and now a county in South Carolina. Many municipalities and states such as New Orleans, Tampa, Virginia, Mississippi and North Carolina regularly [spray for mosquito](#) control. Such widespread spraying of the potentially lethal chemical warfare agent known as Naled is being masqueraded as a relatively benign insecticide designed to kill off the latest designated enemy adult Aedes mosquitos when in actuality it's more likely designed to kill off the globalists' number one enemy – us humans. Local health officials where the spraying has been conducted are only warning the public to stay indoors during the hours of overhead spraying. Left out of all public discourse and information is the fact that Naled carries a plethora of known health risks that can be lethal. Bottom line, Naled is being used as a convenient means to both sterilize large swaths of the population while simultaneously slowly poisoning us to death through yet another [soft kill eugenics method](#) within the elite's ever-growing secret WMD arsenal.

Last week's headlines rang out from Dorchester County, [South Carolina](#) where Naled was sprayed causing a massive bee die-off. Even the mainstream rag *The Washington Post* [ran an article](#) entitled "'Like it's been nuked': Millions of bees dead after South Carolina sprays for

Zika mosquitoes." Though county health officials knew Naled would kill bees, the spraying occurred between 6:30-8:30 AM last Sunday while worker bees were out of their hives pollinating for food. The catastrophe could have easily been prevented had the aerial spraying been conducted overnight while bees were safely inside their hives. Knowing the fatal consequence of spraying during daylight hours when bee colonies were active, and using Naled under the extreme false pretense of "protecting" the public knowing it harms all life forms, it appears the powers-that-shouldn't-be are running a beta test on deploying [a chemical weapon](#) against us humans. The subsequent result is nothing less than a willful, calculated decision to both destroy the pollinators responsible for 30% of our fruits and vegetable produce as well as commit human genocide. In recent years [bee colony collapse](#) has become an ominous sign of the times, largely due to Monsanto, geoengineering, and parasites. Add now Naled to the list.

According to writer, activist and much maligned Professor [James Tracy's most recent article](#), Naled causes acute toxicity whether inhaled, absorbed through the skin or ingested, resulting in:

Corrosive [effects] to the mucous membranes lining the mouth, throat, and lungs, and inhalation may cause severe irritation. When inhaled, the first effects are usually

respiratory and may include the **bloody or a runny nose, coughing, chest discomfort, difficult or short breath, and wheezing due to constriction or excess fluid in the bronchial tubes.**

Eye irritation and bloody tears are also a common enough reaction. As a neurotoxin, severe Naled poisoning attacks the central nervous system leading to potential respiratory failure, cardiac arrest, and even death. Furthermore, spraying Naled during warm temperatures or during sunlit hours [only intensify](#) its debilitating effects.

The less severe toxic effects from the chemical Naled can easily be confused with effects from the Zika virus. Thus by design, systematic spraying may in itself cause a surge in misdiagnosed Zika cases by misinformed citizens as well as their medical practitioners. And it's no accident that the very chemical selected to eliminate mosquitoes carrying a harmless virus deceitfully linked to abnormal brain development in fetuses also [causes severe fetal brain damage](#). Certainly those responsible for spraying such harmful aerosol substances as Naled know full well the disastrous harm it will cause the public and bees alike just as the same perpetrators have knowingly been poisoning millions of people, animals and plants throughout North America and Europe raining down daily doses of toxic heavy metals from airplanes through [pervasive](#)

[geoengineering](#) spanning many decades. No other logical conclusion can be drawn that both this false flag Zika crisis and geoengineering are clearly a calculated, cold-blooded decision made by a psychopathic elite to cull the human population among other sinister purposes.

Two highly reputable doctor organizations in [Brazil and Argentina](#) that have extensively studied the infected Brazilian population maintain that the Zika mosquito is not the cause of microcephaly. They assert that the true culprit is a larvacide called Pyriproxyfen introduced into the local drinking water supply in 2014 by a Brazilian health program designed to eradicate disease-carrying mosquitoes sponsored by the Japanese company Sumitomo Chemical, "a strategic partner" of [Monsanto](#). It appears to be yet another criminal case where the powerful chemical industry co-opted by the corrupt Brazilian Health Ministry is falsely blaming the mosquito for the microcephaly crisis in Brazil when it was actually caused by the fascist corporate controlled government.

For nefarious purposes, quackery science has linked the Brazilian microcephaly crisis to the Zika infected mosquito when no sound evidence exists to support such a claim. In early February Brazil's Ministry of Health reported 4,783 cases of microcephaly just since last October when every year prior only 150 cases were diagnosed. Upon closer

analysis as of seven months ago, of the 404 cases examined, [only 17 cases \(4.2%\)](#) tested positive for the Zika virus. This strongly suggests that the scandal-ridden Brazilian government that just illicitly ousted its relatively honest, [populist president](#) last week, purposefully inflated the records to artificially create the so-called crisis as a subterfuge to conceal its own criminality. And since governments around the world are clearly controlled by the likes of such powerful corporations as Big Pharma and Monsanto, Zika is yet one more NWO false flag assault on humanity. Yet despite this overwhelming evidence dispelling the Zika-microcephaly connection, last February [WHO Director-General Margaret Chan](#) went ahead bogusly claiming it was "strongly suspected but not yet scientifically proven" that Zika causes microcephaly. The NWO agenda is alive and well in the WHO.

What's diabolical about this grand deception being played out now is the medical establishment per WHO/CDC/Big Pharma is also insisting that [no current vaccine](#) even exists to treat Zika. Hence Obama asked for a whopping [\\$1.9 billion](#) to fast-track research for a vaccine "cure." Of course, we know the huge pharmaceutical corporations already [make obscene profits](#), especially in America where [nearly 70%](#) of the US population is currently taking their harmful, often addictive prescription drugs. Yet we're supposed to believe that everybody's been caught off guard

with this preplanned Zika crisis and we don't yet have a single vaccine available to deal with this latest manufactured crisis, so like clockwork billions of tax dollars are suddenly urgently required. Add one more boldface lie to America.

It's déjà vu all over again, bailing out the largest banks after they criminally [committed fraud](#) causing the 2008-09 housing bubble crisis. Or inventing manufactured enemies for [nonstop wars so that banks](#) and the military industrial security complex can grow bigger and more powerful. The government-corporate nexus fronting the international crime cabal in charge of the planet at every annual [Bilderberger meeting](#) plans every staged global crisis so that a fascist totalitarian one world government subsequently moves one step closer in lockstep Hegelian cadence. You can bet that Big Pharma's already got a host of vaccines lined up waiting for that [\\$1.9 billion cash cow windfall](#), never letting "a serious crisis go to waste" as Obama's Chicago mayoral hitman [Rahm Emanuel](#) would say.

The fact is a long sinister history of manmade viruses have been spawned from Fort Detrick US military [test tube labs](#) preceding this latest NWO flavor of the month "death threat." HIV/AIDS, the H5N1 avian bird flu, SARS, [Ebola virus](#), the Middle East Respiratory Syndrome (MERS) all readily come to mind. This vast, growing list of bioweapons within

the elite's biological and chemical stockpile is seemingly endless despite a long-established [international ban](#) on all chemical and biological warfare agents dating back to the 1925 Geneva Protocol. But with arrogant US Empire exceptionalism and global impunity, while forcibly imposing compliance on all other nations, the US never respects legal limits or restraints of its own long flagrant [defiance of all international law](#).

For some time the global elite has been searching for an excuse to mandate forced sterilization (with already [a past history](#) spanning many decades) and forced vaccination programs on the human population. Through the Zika hoax, it appears that the globalists are moving in for their parasitic kill. The beta test state is California that last year made [vaccinations mandatory](#) for all adults with those refusing subject to extensive prison sentences. Unless we act now to spread the dire truth, the oppressive grip of totalitarianism fast descending on [police state USA](#) is already here to stay. The freedom and civil liberties we citizens once took for granted in America are sadly all but distant memories.

Just as deep state regularly stages [false flag terrorism](#) with the aim of selling gun control and ultimate gun confiscation along with spreading paranoid fear of both violent Islamic as well as homegrown extremists for ultimate population

control, these same tactics are being rolled out and deployed with this year's latest medical death scare scenario presently being foisted on the global public. This exact same elitist agenda has glommed onto and exploited the [global warming/climate change hoax](#) as humanity's "[greatest 21st-century threat](#)" in order to justify ushering in formalized one world government tyranny. In every one of these preplanned endgame scenarios, an increasingly centralized government intends to deceive the masses into believing that it will be their only savior to protect and take care of them when in fact the one world government is the fox guarding the henhouse.

Again, as long as a [dumbed down population](#) keeps swallowing all the deep state lies, history will only repeat itself ad nauseam. If you're gullibly thinking the government cannot be so diabolical as to kill its own citizens, recall on this 15-year anniversary of 9/11 when Washington neocons still in power partnered with Israel and Saudi Arabia to [murder 3,000 Americans](#). Maliciously using Americans as expendable guinea pigs for "scientific research" has a long dark history in the US and abroad. The US military and CIA are notorious for their crimes against humanity. The [cancer-causing radiation](#) from nuclear fallout testing placed millions in harm's way throughout the 1950's and 60's. [Radioactive spraying](#) in poor black neighborhoods in St. Louis back in the 1950's, for four decades in Tuskegee, AL injecting

African-American sharecroppers [with syphilis](#) as well as [Guatemalans](#), decades of drugged MK Ultra LSD-type [experiments on US soldiers](#) right up to Gulf War veterans used as guinea pigs forced to take a nerve agent believed to cause the [Gulf War Syndrome](#), this [list of nonconsensual criminality](#) destroying thousands of lives is both despicable and exhausting. With this precedent a long established fact, the idea of the government willfully injuring and killing its own innocent people shouldn't be at all surprising. The number of murdered victims at the hands of their own national government committing democide in the last century is [six times greater](#) than the number of people killed in all the combined 20th-century wars that included the two deadliest in human history.

The exponential rise in recent months of [staged threats](#) lurking in our ever-increasingly "dangerous world" keeps the human sheep in angst-ridden bondage, blindly, obediently following the evil dictates of their cagey ruling masters all the way to the depopulation slaughterhouse. The globalists are ratcheting up their scare tactics and self-induced crises because they're fully aware that the global masses are finally waking up and recognizing the elite's murderous genocidal end game to [depopulate the planet](#) by 90%. The [Georgia Guidestones](#) as the elite's ten commandments backed by the likes of globalists Ted Turner and [Bill Gates](#) need a faster, more deadly weapon to

drastically reduce the global population down to a half billion people from the current 7.4 inhabiting the earth. For years now Bill and wife Melinda have been diligently working their vaccines as a eugenics Trojan horse not to save but to shorten lives with vaccines causing far more harm than good. Then numerous doctors exposing vaccine fraud and its sinister intent have paid the ultimate price as [murder victims](#). Finally, with the elite's [orchestrated World War III](#) looming on the horizon against [Russia](#) and [China](#) and its house of cards global economy on the [verge of total collapse](#), our time is fast running out.
